Grant Funding Proposals and Applications

Grants-in-aid may become available from the federal or state government or private sources. The district will pursue those grants that will assist the district in meeting the adopted goals and objectives of the current curriculum or will create facilities, purchase equipment, or otherwise assist in implementing such programs as previously considered/approved.

The Board directs that each grant application receives prior approval from the superintendent or designee before formal applications. In determining a recommendation, the superintendent or designee will consider the obligations, expectations or encumbrances which may impact the district.

The Board will be informed of grants awarded to the district during the financial report of the regularly scheduled Board meeting.
