Construction students build storage shed

Students in Mike Leone’s Construction II course at Gladstone High put their new skills to practical use, building a storage shed for the softball team.

“This new structure will be a useful addition to our athletic program for years to come,” said Leone. “This project gave 20 students the opportunity to make a positive impact on our campus while learning real-world construction skills.”

Keystone Chiropractic donates to Food Pantry

Customers of Keystone Chiropractic donated several boxes of food to the Gladstone Food Pantry. The contributions helped expand the variety and amount of food available to families in need.

“Gladstone is a community that cares,” said Dr. Brad Vollmer. “We are proud to support this vital resource that so many of our neighbors rely on.”

Key Club blood drive saves lives

A blood drive planned by the Gladstone High Key Club brought 58 units of blood to the Red Cross.

“Each pint donated can help up to three people,” said club sponsor Lynnda Prom. “This student-led effort may help up to 174 individuals in need of surgery or battling disease.”
