**Gladstone High Key Club holds two blood drives**

To counteract the national drop in blood donations due to flooding, snow and other weather events, Gladstone High School held blood drives on April 29 and May 1.

The two events resulted in the donation of 122 units of blood.

“Each unit of blood can help up to three people,” said club sponsor Lynnda Prom. “We had five total blood drives this year, and collected 270 units total. That’s 47 units more than last year!”
